Westchester Willkie Groups Offer Plan To Reorganize as 'American Clubs'

Aims Are Given

#### Resolution for Willkie Consideration Offers **Nine Points**

Scarsdale, N. Y., Dec. 7 (A)-A plan for reorganization of all Willkie clubs into "American Clubs" in every community, county and state was presented last night at a meeting of representatives of

Representing the ideas of about 200 Westchester residents, the plan was endorsed by the meeting and a resolution passed that it be submitted to Wendell L. Willkie for his consideration. It was compiled by William W. Luman of this village, Willkie Club coordinator

Mr. Luman and Francis E. Ron-nenberg, Jr., of White Plains, or-ganizer of Westchester Willkie ganizer of Westchester Willkie clubs, who both presented the plan to the meeting declared it exto the meeting, declared it expresses the collective ideas of members of Westchester Willkie clubs, Democrats-for-Willkie, independents and regular Republi-

"In the idea behind the American Club there is no intention to set up a separate political entity Property of Quarryville or party, but rather to strengthen the minority," Mr. Luman said to-day. "Mr. Willkie declared that he hopes to furnish a 'loyal opposition' to the administration, and this plan proposes to give a mode of operation and a purposeful design to those members of the minority who may not care to ler of Quarryville, who wandered

The American Club, Mr. Luman explained, would arrange roundtable discussions with leaders in labor, industry, agriculture and civic organizations. It also would organize forums and carry on welfare projects. In relations with other groups, the American Club would be primarily a coordinating and planning agency through which mutual objectives and pur-

Willkie the party's presidential nominee, received more Republican votes in New York November 5 than "any candidate for any office ever received on any party line.'

While the executive committee regarded reapportionment "a matter solely for the Legislature," its members heard Ashmead argue Queens county is insufficiently represented on the basis of the present apportionment voted in 1917. Queens, Westchester and Nassau counties polled the highest number of votes for Willkie in New York state.

Governor Lehman has consistently urged a reapportionment of both legislative and congressional districts in recent years, but partisan differences prevented passage of legislation.

(By The Associated Press) Harassed by the Greeks, Italy made another change in her high command today, replacing Brigadier General Cesare Maria De Vecchi Count Di Val Cismon, commander of the Aegean forces and governor of the strategic Dodecanese Islands, with General Ettore Bastico, commander of the army of the Po.

There was no official comment on what the change meant, but its importance was not lessened by the fact that the man who relinquished his command was one of the highest ranking Fascists in Italy, a World War veteran who took part in the march on Rome

#### Students having marks of 80 per Statewide Survey Of Nursing Power Starts Next Week

A state-wide survey of nursing power will be launched December 10 by the New York State Nurses Association, according to Mrs. Ethel M. Fuller, R. N., president of District No. 11. Counties in District No. 11 are Orange, Rockland, Ulster, Sullivan and Greene Greene. Approximately 100,000 grandu-

ate and practical nurses throughout the state will receive a questionnaire by December 15. The survey will determine the mobilization power of graduate and practical nurses in our state, and will include information concerning the amount and type of their follows: experience and their ability to Trails serve, if needed, on a volunteer, full or part-time basis.

Following tabulation, the re-sults of the questionnaires will be Secor, transferred to card files, so that Soper, each one of the 15 districts of the Tierney, Mary (5); Tubby, roster of nurses within its bound-

It is hoped that nurses not now practicing may be able to fill any gaps resulting from the call to service of nurses who are now in full-time positions, either in hospitals or in public health. With such information from which to make a plan, the mistakes of 1917, when committees were stripped of their nursing power, can be avoided.

Mrs. Fuller urges the full cooperation of every nurse, both graduate and practical, to fill out their questionnaires and return to New York State Nursing Inventory for National Defense.

## **Industrial Home** Unit and Y.W.C.A. Are Active in Work

Local Students of Crafts Learn How to Make Many Kinds of Interesting and Useful Items

A nation's quality is reflected literally in the work of its hands and America today owes its place of preeminence to the work of the pioneers who opened trails to the future with hands that symbolize the strength and courage of a free

Every culture also has come from hands in which the soul has reached to the finger tips and they have been the agents of expression for all great music, art,

craft and literature.
Even now in this restless age there is notably more contentment among people who have a grip on life with their hands and effort is growing among construc-tive groups to help many find themselves through self-expression with the hands.

Recent efforts in Kingston to spread this doctrine of creative effort have been a revelation of the fact that many people have latent talents which need only training patience and the right attitude in carrying through to win them a useful and most satisfying avoca-

A group estimated at between 75 and 85 persons are now engaged in various phases of handi-craft training and many of these already have produced works of excellent quality.

#### Children and Adults

Some of these classes are conducted in conjunction with the local Y. W. C. A. by Mrs. William J. McVey, wife of the pastor of the First Presbyterian Church on Elmendorf street. Other classes are held at the Industrial Home where many children have been made happier through discovery of their own talents.

Such work with the children is particularly important, Mrs. Mc-Vey believes because it teaches them the co-ordination of hands and mind. It is psychologically important to adults also because it fulfills the need of many for self expression.

Many believe this type of work belongs in the luxury class, and therefore this kind of education has been greatly neglected.

This idea is a mistake, however, says Mrs. McVey, because many of the crafts require few some of which can be made from things found in every household. Material too, is comparatively inexpensive unless one wishes to attempt large things in the precious

#### Utility Value

Along with other advantages of this work is that the articles made have a utility as well as decorative value and they are also mar-

The greatest value to the craft worker, however, is the joy and satisfaction of creating something through one's own developed skill and effort.

Human beings generally are hungry for some kind of creative activity in which they can ex-press themselves, says Mrs. Mc-Vey, and the leisure time of adults may be used constructively for more worthy ends and lasting results through some form of handi-

Even the busy housewife will find release and joy in making for herself and her home various articles which sometimes she cannot afford to purchase.

### Lessens Delinquency

With children, education in the hand skills is of incalculable value. It is a well-known fact that juvenile delinquency is lowest in

correctional institutions.

Children of the Industrial Home class are now making their own Christmas cards and a variety of items for presents. The cards will be printed from linoleum block designs which show marked talent among the children and the group also produces works in metal and the other crafts.

Similar work is being completed Miss Mulligan Makes for Christmas by many in the classes at the Y. W. C. A. and many of the students have produced excellent results in the vari-

#### PROMOTION DESERVED

Kingston's loss is Asbury Park's gain in the transfer of General Secretary Robert L. Sisson of the local Y. M. C. A. to a larger field of endeavor in Y. M. C. A. work in the New Jersey resort.

During his four-year stay in our midst Mr. Sisson was always engaged in something constructive for the city and never anything destructive. With a talent for sustained effort, to his light.

The best wishes of the community for his continued success go with him in his new

Neighborly ties do not break; they merely stretch and they are the strongest and most elastic thing in the world. Mr. Sisson will long be remembered for his liberality with his time, interest and devotion to civic affairs.

#### CHRISTMAS CHEER

That Kingston's men and women as a whole are honorable, honest and industrious was brought out at a recent meeting of the Christmas Cheer Committee, when it was announced that of the questionnaires sent out approximately one hundred had been returned by heads of families stating that they would not need Christmas relief this year.

In discussing the matter members of the committee felt that it was an indication that those on relief, are self respecting and do not seek assistance when otherwise able to take care of themselves.

Practically every family who declined Christmas Cheer this year were recipients other years, a check-up disclosed.

Many of those stating that they would play Santa Claus themselves this year declared that they had obtained better paying jobs and so were able to sustain their families and care for their Christmas needs.

As usual the Christmas Cheer Committee is receiving a number of letters written by children addressed to Santa Claus. These letters are filed and checked with the list of children, who are to receive Christmas packages this year.

It is of considerable interest that on some of the letters written by the children are notes from the mothers stating that they would much rather have a supply of coal than toys.

The committee is planning this season to emember some 1,800 children, and every effort is being made to see that all needy children have a very Merry Christmas.

It should be a pleasure for everyone, in a position to do so, to give generous support to the Christmas Cheer Committee.

#### JAPANESE GOOD SENSE

Admiral Kichisaburo Nomura, newlyppointed Japanese ambassador to this counry, is everlastingly right when he says that "war between the United States and Japan yould be a tragedy for civilization.'

There are no differences between the two governments which cannot be solved by time and statecraft. War always leads to war, because the loser of the first round seeks revenge in a second, and so on.

It would be a wonderful happening for the whole world if those in command in Japan adopted Admiral Nomura's view, stopped the "Chinese incident," stopped threatening other parts of the Orient, and really sought, with the United States and other peaceloving governments, to apply sound statesmanship and healing time to the solution of the world's troubles.

### GIFTED YOUTH

One of the disturbing social changes the late Lord Tweedsmuir, formerly governorgeneral of Canada, observed in his lifetime, was the growing difficulty of talented young men and women to find the proper outlet for their special gifts. He did not worry about the genius; true genius fights through all obstacles to expression. On the other hand, more and more young pepole with a little better than average intelligence and ability, seemed to him to be slipping into ruts in which they were not particularly happy, in which they could not exercise their full gifts, Hurley.

and from which they seemed unable to HAND ACROSS THE SEA

That, in his opinion, was an ominous situation. Its causes needed study and application of the indicated remedy—if it could be found.

There are many persons in the United States who think youth is being coddled today, that young people could "get ahead" in life if they only had grit and ambition; their difficulties, when they have any, are their

No doubt there are such young people, but there are as many others, with gifts worthy of development and abilities which should be put to use, who try again and again in vain. The democratic ways of life should not permit permanent barriers against their efforts. Nor should it solve their problem as Hitler solved that of idle German youth. ## THAT BODY OF YOURS

By James W. Barton, M. D.

(Registered in accordance with the Copyright Act.) DISEASES WHICH RUN IN YOUR FAMILY

I was talking with a chap one day and when the subject of health came up, he stated that he had just finished reading a book and found that when he was born the condition of his body-glands, digestive apparatus, heart and bloodvessels—was determined for life and there was nothing he could do to change his tissues in any way. For that reason he was paying no attention to his health, what he ate, how much he slept, how much exercise he took, if any, and he believed he was feeling better than for some time

I told him that I thought he was wise to forget or think about his health because he had a narrow was underweight, and was very, very nervous. I told him that being a worrier (which he admitted) might bring on nervous ailments such as stomach intestinal ulcer, colitis, and a neurosis of some kind such as believing he had some disease-heart, bloodvessels, kidneys-which could not only bring on symptoms of these ailments but might actually cause the ailments themselves, as pointed out by Prof. W. P. Cannon, of Harvard.

The fact that he would stop worrying about his health would be of great help to him physically and mentally but did not mean, however, that becau "plasms" were fixed for him at birth he had to have heart disease, high blood pressure, tuberculosis, diabetes or other diseases with which his parents or grandparents suffered. By care as to avoiding infection (from diseased teeth, avoiding excitement and emotional disturbances, by getting plenty of rest and fresh air and not letting himself get overweight, he could prevent heart disease, high blood pressure, tuberculosis and diabetes, respectively. That was only four diseases that might naturally attack him because of his "plasms" present at birth. There were other diseases, equally dangerous, that could be prevented by taking some thought about his health.

It is true that what we start out with at birth can determine our general health and our length of life. However, the home in which we live, the office store or factory in which we work, our food, rest exercise, can greatly modify or shape these general

trends we have inherited. Whether we start out with a Ford body or a Rolls Royce, it requires care to make it do its best

Chances Are That, if Administration Can Find Way to Loan Funds to Britain Without Asking Congress It Will Be Done By DAVID LAWRENCE \_\_

Washington, Dec. 7.- If there's an indirect way to lend money to

By Bressler

The prospects are, indeed, that no legislation will be deemed necessary for financial aid, any more was for the dispatch of over-age destroyers. Plenty of plans are being dis-

cussed among government officials helping Britain finance the war, but they are plans that involve American private capital and not direct government loans. That's why when Jesse Jones, federal loan administrator, says Britain is a "good risk" and Secretary of the Treasury Morgenthan concurs. They merely mean it would be a sound investment for American capitalists to ask American investors to lend money on British securities. The talk is that Britain holds about \$9,000,000,000 worth of

investments in this hemisphere. A huge private corporation or finance company would be formed to finance British purchases of American materials and manufactured The British would pay for their defense orders in cash as provided by law, but the money would come from a large fund set up in behalf of British security would lend their money to the British government for the purpose of making these purchases. The finance corporation would

ask that all the British securities be deposited as collateral for the loan. If at the end of fifteen or twenty years the British didn't pay back the loan or if they didn't meet the annual sinking fund pay-ments to be provided, then the collateral would become the property of the American Finance Corporation. Since the securities in question are stocks and bonds of companies

located in this country and in other parts of the western hemisphere, the citizens of the United States would merely be lending money based on collateral much bers of the Ever Ready Club en- of which would be readily marketable on the stock exchanges. It becomes, therefore, a banking transaction in which American banks probably would participate heavily. Possibly the Reconstruc-

Clearly if public sentiment favors extending financial aid to Britain by this circumvention of the statutes, there will be as lit. tle criticism as there was when the over-age destroyers were sent abroad even though the language of the statute in the opinion many lawyers explicitly forbade

such a step.
When the national will is over whelmingly in favor of a step in time of war or near war, the tendency is for Congress to go along without raising any obstacles. Something of the same sort will doubtless develop when the question of credits is worked out

simple truth is that the British need cash with which to buy armament. They have a cer-tain amount of wealth in the form securities belonging to their own citizens. Since the American neutrality laws require cash on the barrel-head, the British will insist that they ought to be able to supply securities as payment. But the United States, on

The whole problem tains internal and external factors and that is what makes possible for the administration, it so desires, to furnish the financial machinery for the release of private credits, or even for the guarantee of the financing operation by participating in the chase of the bonds of Americanowned and American-managed securities of British citizens.

It will be recalled that national defense orders are intertwined for the most part now so that most chases from American factories, materials flow steadily to Britain.

YOU'D PROBABLY LOOK THIS WAY, TOO—With the draft less than two months old, Uncle Sam's new army of soldiers still lacks the precision that generals dream about, and this squad at Fort Ord, Cal., encountered the usual trouble with "Shoulder Arms." The man in center seems most bowed down with responsibilities of the army's manual of arms. At Fort Ord, 12.500 men already are housed in a tent camp, and some 30,000 more are expected when permanent buildings are completed.

FAN—Rightly enough a football helmet is the favorite spot of "Desperate Dexter," mascot of Coronado high school, winners of the San Diego metropolitan football title.

TEMPER—It's all right to win "best cat" title at St. Louis but why make such a fuss, thinks Sir Roderick Blue II. Persian owned by Mrs. Ruth, Vicara of Terro Hauto.

WHAT NECESSITY MOTHERED—Lack of gasoline and scarcity of taxis have produced a bicycle boom in Paris, and French women are tempering their clothes needs accordingly. Here's a Lucile Manguin trouser skirt (or jupe culotte) that enables the Parisienne in a city now directed by Germans to do her shopping readily. Blouse is of scarlet flannel.

SWAP SEASON ON IN BASEBALL—With an eye on next year's pennant, the Brooklyn Dodgers have acquired Catcher Mickey Owen (left) from the St. Louis Cardinals in exchange for Rookie Pitcher John Pintar (right), Catcher Gus Mancuso (not shown), and money estimated at from \$65,000 to \$75,000. A defensive star, Owen is 23 years old, batted .265 last season.

AP Feature Service Writer Mrs. August Belmont, winner of the 1940 American Woman's Association Award for Eminent Achievement, has built two interesting and famous careers in the last 40 years.

In the gilded days of the ninehundreds she was a Broadway toast as the beautiful young actress Eleanor Robson. Now, as the handsome, white-haired widow of the banker-sportsman-philanthropist, she has won fame for her philanthropic and social service, in recognition of which she received the A.W.A. award. Most of

In her philanthropic work Mrs. Belmont is known for her speed and efficiency in raising funds. If all the dollars she has helped raise for various projects in the last 25 years were heaped in one mountain of millions, its computation would make a comptrometer creak.

When the depression threw thousands of men out of jobs, she helped raise \$9,000,000 in their behalf through the work of the Woman's Division of the Emergency Unemployment Relief Com-

A few years later she did her bit to keep the Metropolitan Opera alive by founding the Metropolitan Guild, which she still heads. Today it has between 16,-

#### French Will Resume Religious Teachings

Vichy, France, Dec. 7 (P) .-Plans to return religious education to the schools of France were announced today by Jacques Chevalier, secretary general in the ministry of pub-lic education, who said "Godless schooling has had its day."

Religious education in French government-supported schools was abolished in 1923. Its reintroduction was authorized in a decree which said schools must teach "duty toward ourselves and our kind-family and country-and toward God."

HOSTESS WHO SPECIFIES DIFFERENT HOURS FOR GROUP OF GUESTS RAISES QUESTION PUT TO EMILY POST

Probably To Avoid Confusion of Crowd, Also To Get Those Who Are Congenial Together

Hazarding a guess, I should say that when a hostess gives a party and invites some of her guests to come in between three and four o'clock, others between four and five, and still others between five and six, she hopes in this way to assemble them in especially congenial groups. Also, by naming three different hours she probably hopes to prevent the confusion of having too many people come at one time. It is of course only fair to note that in all such separated lists of guests, there will almost certainly be some who feel, no matter when they are invited, that they have been singled out and put with the wrong

This answers a letter which also asks why the writer, in view of the fact that every one else she has spoken to was invited at one of these times, had herself received an invitation reading three to six? To this one person, I should say that the hostess evidently considers her adaptability so great that she fits in each of the groups. In other words, she will be welcomed, no matter how soon or how late she arrives, and 10 p. m.-Bundles for Britain encouraged to stay to the last.

Answer Your Telephone

Dear Mrs. Post: I have a friend who will not come to the telephone when her friends call unless it happens to be convenient to her. She has her maid take cause it doesn't always suit us when she calls later. But we'd

like to have your opinion. Answer: There are a certain few people-invalids or else really busy professional people—who can be excused for doing as you describe. But unless the question of health or business is really un-usual, this behavior—particularly as a regular practice—is certainly inconsiderate to the point of rude

Naming a Stepmother

Dear Mrs. Post: I am marrying man for whom I have been housekeeping for the past several years. He has two half-grown children who have been very nice to me and who have called me Mrs. Brown ever since I came. They will now become my stepchildren and I am wondering what

they should call me? Answer: Since this question concerns you and the children so personally, I think the best way is to discuss it with them. Achurch, 52 Main street. 10 p. m.—Greek War Relief So-course, children call a stepmother by first name when there is not too many years difference in their ages. Otherwise, they call her Aunt Mary, or Mother Mary, or almost any substitute for mother but Mrs. I know of one stepmother who was called Em Ay (M. A.). I have also known in other cases where the children wanted to call a stepmother "Mother" but this must be

their own impulse and not one suggested to them. (Released by The Bell Syndicate,

# Middies Trample Maroon and White Cagers in DUSO by 43-21

## **Visitors Are Paced** By Osborne's 16; Ball Performs Well

ocals Are Outplayed by Powerful Middie Team; Ball Gets Seven Points; Shooting Ragged

The expected ran true to form Friday evening at municipal auditorium when Middletown High School's powerful basketball representatives scored a lop-sided victory over Kingston High by 43 to

Opening the 1940-41 DUSO schedule the Maroon and White warriors, holders of the coveted crown for five consecutive seasons were completely outplayed and outclassed by the fast moving Middie combination.

A standout last season and in all probability a greater player this year, Bill "Hack" Osborne, Middletown's left guard, stole the show by collecting a high total of 16 points. Bill not only took scoring honors but led the way as far as close checking was concerned on the Kingston athletes.

#### Osborne Shines

The Maroon's inexperienced ball handlers proved to be no match for the Middletown man. At only one time in the game did Kingston show much color and that was the third period when the locals trailed by 27-14. But again, Osborne went to town and managed to keep his teammates in the lead

Although outclassed in every de partment the basketeers of Coach G. Warren Kias displayed some spots for future games. Bill Ball, playing his first game in a varsity uniform, paced his club with seven points and also perked

From the start there wasn't much doubt of the outcome of Osborne and company started to roll. Shots by Osborne and McCormick, plus a few foul conversions gave Middleown a 13-4 topping at the end of the first period. Billy Ball dumped in the lone field for Kingston in this session.

Middletown's power-laden quinmain loss was the poor shooting of the entire club.

HERE at last are clastic
stockings you won't mind
wearing. They are so sheer
they look like fine silk bose,
and can be worn unnoticed.
And the lighter Lastex yarms
give you cool comfort, yet
you get full support, too, And
they can be washed frequently
without losing
their shape. Ask
y our doctor
about Bauer &
Black Elestic
Stockings.
